

Appendix A

Laws and Regulations Affecting Base Reuse Implementation

The Defense Authorization Amendments and Base Closure and Realignment Act of 1988 (BCRA 88, Title II of Pub. L. 100-526, 10 U.S.C. § 2687 note), and the Defense Base Closure and Realignment Act of 1990 (DBCRA 90, Part A of Title XXIX of Pub. L. 101-510, 10 U.S.C. § 2687 note), establish the basic requirements for identifying and implementing domestic military base closures and realignments.

Since their enactment, the base closure laws have been amended and supplemented by several key statutes, including:

- The National Defense Authorization Act for Fiscal Years 1992 and 1993 (NDAA 92/93, Pub. L. 102-190).
- The National Defense Authorization Act for Fiscal Year 1993 (NDAA 93, Pub. L. 102-484).
- The National Defense Authorization Act for Fiscal Year 1994, which includes the Base Closure Community Assistance Act, the “Pryor Amendments,” as Title XXIX (NDAA 94, Pub. L. 103-160).
- The National Defense Authorization Act for Fiscal Year 1995 (NDAA 95, Pub. L. 103-337).
- The Base Closure Community Redevelopment and Homeless Assistance Act of 1994 (“Redevelopment Act,” Pub. L. 103-421).

Collectively, these laws contain provisions that authorize or require the Secretary of Defense to take actions to initiate and implement base realignment and closure (BRAC) decisions. Installations affected by BRAC decisions are referred to as BRAC installations. In addition, these laws identify other applicable legal authorities, thereby creating the current system of rules that govern base reuse implementation.

Laws and Regulations Affecting Base Reuse Implementation

Provisions in the laws listed above authorize the Secretary of Defense to:

- Provide assistance to communities that experience adverse economic circumstances as a result of base closures or realignments.
- Work with local redevelopment authorities (LRAs) to identify and implement means of reutilizing or redeveloping BRAC installations.
- Designate a Base Transition Coordinator for each closing base to facilitate base reuse implementation.
- Ensure that the needs of the homeless within the local community are taken into consideration during redevelopment planning.
- Complete Federal, State, and local screening of excess and surplus real property within clearly specified timeframes.
- Inventory and transfer personal property to recipients of real estate under certain circumstances.
- When necessary to support economic redevelopment, convey items of personal property directly to LRAs.
- Complete environmental impact analysis activities within specified times to support disposal decision making.
- Maintain minimum levels of maintenance and repair necessary to support non-military reuse for specific time periods.
- Lease property to LRAs at less than fair market rental value when it is in the public interest.
- Convey real and personal property to LRAs at less than fair market value when appropriate to support economic redevelopment and when other authorized disposal methods cannot meet that goal.
- Establish separate transfer accounts to fund, and receive proceeds from, base reuse implementation activities.

Specific laws referenced in BCRA 88 and DBCRA 90, as amended by NDAA 94, and BCCRHA 94 include the following:

- **The Stewart B. McKinney Homeless Assistance Act**, as amended (McKinney Act) [42 U.S.C. § 11301 *et seq.*], governs the identification and utilization of buildings and property that are suitable for homeless assistance on many BRAC 88, BRAC 91 and BRAC 93 installations. BRAC 95 bases have been specifically exempted from the provisions of the McKinney Act and are only subject to the provisions of the Redevelopment Act.

- **Sections 203 and 204 of the Federal Property and Administrative Services Act of 1949**, as amended (FPASA or “49 Act”) [40 U.S.C. §§ 483, 484], govern the utilization of excess Federal property and the disposal of surplus Federal property.
- **Public Law 103-272 (1994), which recodified Section 13(g) of the Surplus Property Act of 1944** (SPA or “44 Act”) [49 U.S.C. §§ 47151–47153], governs the disposal of surplus Federal property for use as a public airport. [formerly codified at 50 U.S.C. App. § 1622(g)].
- **The Act of May 19, 1948**, as amended [16 U.S.C. § 667b–d], governs the transfer of Federal property to State agencies, or to the Department of the Interior, for wildlife conservation purposes.
- **The National Environmental Policy Act of 1969**, as amended (NEPA) [42 U.S.C. § 4321 *et seq.*], requires the Federal Government to assess the potential environmental impacts of its proposed action to dispose of surplus Federal property prior to making final disposal decisions.
- Section 120 of the **Comprehensive Environmental Response, Compensation, and Liability Act**, as amended (CERCLA) [42 U.S.C. § 9601 *et seq.*], governs:
 - Responses to releases of hazardous substances, pollutants, or contaminants.
 - Deed notification and covenant and lease notification requirements for property transfer at BRAC installations. [Note: In some cases, property can now be transferred to private parties before remedial action has been taken and the covenant requirements have been fulfilled.]
- **Other applicable statutes** that protect natural and cultural resources and govern environmental responses on Federal lands.

The above statutes, their implementing regulations, and the provisions of BCRA 88, DBCRA 90, NDAA 92/93, NDAA 93, NDAA 94, NDAA 95 and the Redevelopment Act listed above, define the basic legal framework for base reuse implementation. This legal framework is depicted in Figure A-1, which identifies the two base closure laws, and other relevant laws or categories of laws (including certain statutory references) that affect base reuse implementation.

The statutes and regulations shown in Figure A-1 are summarized for easy reference in Table A-1. Table A-1 also includes items not depicted on Figure A-1 as well as pertinent Department of Defense (DoD) directives (not shown in Figure A-1) and other regulations that provide guidance for implementing the Federal requirements. Table A-2 summarizes the legal authorities governing the disposal of surplus Federal property. Table A-3 identifies deadlines that have been established by Federal law to encourage timely completion of base reuse implementation and economic conversion.

DEPOSITORY INSTITUTION FACILITIES	Sale	Military Department	None	NDAA 92/93 § 2825, NDAA 94 § 2928
LEASEBACK	Approved	Military Department	Up to 100%	NDAA 96, Title XXVIII, § 2837
ECONOMIC DEVELOPMENT CONVEYANCE	Approved	Military Department	Up to 100%	NDAA 94, Title XXIX, § 2903

Key to Table A-2

¹Public benefit and other specific conveyances are typically either approved or sponsored by the authorized Federal Agency. In approved transfers, the Federal Agency must grant its approval but property conveyance is accomplished by the Military Department. In sponsored transfers, the Military Department assigns the property to the Federal Agency, upon request, and the Federal Agency is responsible for conveyance of the property to its recipient.

²Property for shrines, memorials or other religious purposes is eligible for public benefit conveyance (PBC) only as part of a parcel transferred under another PBC mechanism.

³42 U.S.C. § 11411 designates uses for homeless assistance as a specific public health category under FPASA § 203(k) and gives priority to such uses when considering PBCs.

⁴When the activities of a Federal Agency result in the displacement of persons from their housing, the Federal Agency may request surplus property for replacement housing. Transfer of property is directly from the Military Department to an eligible State agency.

 NDAA 94 National Defense Authorization Act for Fiscal Year 1994

Summary of Key Provisions in Base Closure Laws

Key provisions contained in BCRA 88, DBCRA 90, NDAA 92/93, NDAA 93, NDAA 94, NDAA 95, and the Redevelopment Act are summarized below.

COMMUNITY ASSISTANCE

BCRA 88 and DBCRA 90, as amended by NDAA 94, require and/or authorize the Secretary of Defense to:

- Provide economic adjustment assistance to any community located near a military installation being closed or realigned [Section 2905(a)(1)(B) of DBCRA 90].
- Inform a State or local government applying for assistance under 10 U.S.C. § 2391 (provisions for military base reuse studies and community planning assistance) of the approval or rejection of the application for such assistance within 7 days of receipt in the case of a planning grant, or 30 days of receipt in the case of a community adjustment and economic diversification grant [Section 2913 of NDAA 94].
- Conduct seminars for each community in which a military installation is being closed no later than 6 months after closure is approved (also see Table A-3) [Section 2916 of NDAA 94]. Community seminars are to address the various Federal programs for the reuse and redevelopment of the installation, and provide information about employment assistance to members of these communities.

These requirements, along with those under 10 U.S.C. § 2391, are carried out in large part by the following organizations:

- DoD Component disposal and conversion organizations
- The Office of Economic Adjustment (OEA) within the Office of the Secretary of Defense (OSD), which provides grants to communities for reuse planning (see Table A-3 for deadlines)
- The Base Closure Transition Office (BCTO), within OSD, which coordinates the activities of all Base Transition Coordinators and serves as a clearinghouse for facilitation, coordination, and resolution of Federal Agency issues and other base conversion-related issues
- The Economic Development Administration (EDA) within the Department of Commerce, which provides economic development grants to communities impacted by base closures in accordance with Section 4305 of NDAA 93
- Other Federal Departments and Agencies, which sponsor public benefit conveyances and other conveyances.

CONTRACTING WITH LOCAL AND/OR SMALL OR DISADVANTAGED BUSINESSES

Section 2912 of NDAA 94 requires the Secretary of Defense, when entering into contracts for base closure or realignment, to give preference to qualified businesses located in the vicinity of the installation and to small or disadvantaged business concerns. This preference is specifically extended to include contracts for environmental restoration and mitigation.

BASE TRANSITION COORDINATORS

Section 2915 of NDAA 94 requires the Secretary of Defense to designate a Base Transition Coordinator (BTC) for each closing installation. Transition Coordinator responsibilities are described in NDAA 94 in terms of overall base conversion process facilitation. The BTCs are centrally managed by the Base

Closure and Transition Office (BCTO). Together, the BCTO and BTCs assist base closure communities and the Military Departments in rapid disposal and quick reinvestment of property into productive reuse by acting as a point of contact and facilitator for closure and reuse issues. For example, the BCTO and BTCs assist with resolution of site specific problems and issues, provide monthly community feedback reports to the Deputy Under Secretary of Defense (Industrial Affairs and Installations), and disseminate information pertinent to the closure and reuse process.

ACCELERATING REAL PROPERTY SCREENING

BCRA 88 and DBCRA 90, as amended by Section 2904 of NDAA 94, require the Secretary of Defense to complete formal screening of real property with other Federal Agencies by June 1, 1994 for BRAC 88, 91, and 93 closures and realignments, or within six months of the approval date for future base closures and realignments (see Table A-3). These dates may be postponed, however, if the Secretary of Defense determines that postponement is in the best interest of the community.

HOMELESS ASSISTANCE (MCKINNEY ACT)

The Stewart B. McKinney Homeless Assistance Act, and BCRA 88 and DBCRA 90, as amended by Section 2905 of NDAA 94, require the Secretary of Defense to compile a list of property available for use by “homeless providers” by June 1, 1994, for BRAC 88, 91, and 93 closures and realignments, or within six months of the approval date for future base closures and realignments (see Table A-3). The list of property must be submitted to the Department of Housing and Urban Development (HUD) by these dates, and HUD will then publish a notice of availability and suitability of the property. The homeless providers and HUD are then allotted a period of 60 to 175 days to complete the application and decision-making process in accordance with the McKinney Act. In the absence of an expression of interest to HUD in property suitable for the homeless, an LRA can incorporate the property into its redevelopment plan by submitting written expressions of interest to the DoD Component.

HOMELESS ASSISTANCE (BASE CLOSURE COMMUNITY REDEVELOPMENT AND HOMELESS ASSISTANCE ACT)

The Base Closure Community Redevelopment and Homeless Assistance Act of 1994 (Pub. L. 103-421) amended DBCRA 90 to exempt BRAC 95 installations (and those BRAC 88, 91, and 93 installations whose LRAs submitted a request prior to December 24, 1994) from the McKinney Act and created a new, community-based process for addressing homeless needs in base closure communities. Under the new process, the LRA is responsible for identifying and accommodating community homeless needs in its redevelopment plan, which is submitted with supporting information to HUD. HUD reviews the LRA’s submission and either approves the plan’s homeless provisions or reports to the Military Department on the suitability of buildings and property at the installations for use to assist the homeless and the extent to which the LRA’s application meets HUD’s review criteria. The new process also established a new conveyance authority by which real or personal property to be used for homeless assistance purposes can be transferred at no cost to an LRA or directly to a representative of the homeless.

PERSONAL PROPERTY

BCRA 88 and DBCRA 90, as amended by Sections 2902 and 2909 of NDAA 94, require the Secretary of Defense to inventory personal property (except for certain categories not available to the LRA for reuse) within six months of the approval date for 1995 base closures and realignments (see Table A-3). Section 2902 of NDAA 94 also stipulates that personal property shall not be removed from a closing or realigning base (unless exemptions are approved) until the expiration of one of four specific time periods. These four time periods are summarized in Table A-3. Limitations on the type of personal property eligible for transfer to communities are contained in Sections 2902 and 2909 of NDAA 94 as well.

MILESTONES FOR ENVIRONMENTAL ANALYSIS

Provisions in NDAA 92/93 and NDAA 94 specify dates for completion of several environmental analysis activities. These are shown in Table A-3 under the headings Environmental Impact Analysis and Environmental Cleanup.

TRANSFER OF REAL PROPERTY

BCRA 88 and DBCRA 90, as amended by Section 2903 of NDAA 94, authorize the Secretary of Defense to transfer real and personal property at closing bases to LRAs for less than fair market value under standards and constraints of the statute. Section 2906 of NDAA 94 amends 10 U.S.C. § 2667 and provides similar authority during the leasing of property.

ESTABLISHING BASE CLOSURE ACCOUNTS

Provisions of BCRA 88 and DBCRA 90, as amended or limited by Sections 2921 and 2922 of NDAA 94, require the establishment of separate transfer accounts to fund, and receive proceeds from, base closure and realignment activities. The first is known as the “Department of Defense Base Closure Account” (**BRAC I, or BRAC Part I**, Section 207 of BCRA 88) which is administered for installations designated under BCRA 88. The second account is known as the “Department of Defense Base Closure Account 1990” (**BRAC II, or BRAC Part II**, Section 2906 of DBCRA 90) and is administered for installations designated under DBCRA 90 (includes bases selected for closure and realignment in 1991, 1993 and 1995). The Part II account may be further subdivided into separate accounts for each round of closures and realignments.

CONTRACTING WITH COMMUNITIES FOR POLICE AND FIRE SERVICES

BCRA 88 and DBCRA 90, as amended by Section 2907 of NDAA 94, Section 2839 of NDAA 96, and Section 2812 of NDAA 97, authorize the Secretary of Defense to enter into agreements (including contracts, cooperative agreements, and other arrangements for reimbursement) with local governments for police services, fire protection services, airfield operation services, or other community services at installations to be closed or at facilities not yet transferred or otherwise disposed of at closure sites. This authority cannot be exercised earlier than 180 days before the date on which the installation is to be closed (see Table A-3).

Summary of Key Statutes Referenced by Base Closure Laws

STEWART B. MCKINNEY HOMELESS ASSISTANCE ACT

Section 2905 of NDAA 94 amends Section 204(b) of BCRA 88 and Section 2905(b) of DBCRA 90, by prescribing revised processes for compliance with the Stewart B. McKinney Homeless Assistance Act (**McKinney Act**, 42 U.S.C. § 11301 *et seq.*) at closing bases.

FEDERAL PROPERTY AND ADMINISTRATIVE SERVICES ACT (FPASA)

Section 204(b) of BCRA 88 and Section 2905(b) of DBCRA 90 give the DoD Component (through delegation from GSA to the Secretary of Defense) authority to utilize and dispose of excess and surplus property under Sections 202 and 203 of the Federal Property and Administrative Services Act, as amended (40 U.S.C. §§ 483 and 484, respectively).

Section 202 of the FPASA authorizes the DoD Component to promote the utilization of excess property by executive agencies (i.e. executive Departments, Agencies, or wholly owned Government corporations), and/or transfer excess property to other Federal Agencies for use.

Section 203 of FPASA authorizes the DoD Component to dispose of surplus property

“by sale, exchange, lease, permit, or transfer, for cash, credit, or other property, with or without warranty, and upon such terms and conditions as the [DoD Component through its delegation of authority from the Secretary of Defense] deems proper . . .”

and provides for the disposal of surplus property via a number of different methods:

- Through public advertising for competitive bids [Section 203(e)(2)]
- Through contract realty brokers [Section 203(e)(4)]
- Through negotiated sale to State and local governments [Sections 203(e)(3), (5) and (6)]
- Through public benefit conveyances to State agencies and other eligible institutions within a State [Section 203(j)], including transfers of property for correctional facility use (subject to Department of Justice [DOJ] approval) [Section 203 (p)(1)], and transfers of property for use as a historic monument (subject to Department of the Interior [DOI] approval) [Sections 203(k)(3) and (4)]
- Through assignment of property to the Department of Education (DOEd) for disposal as educational facilities [Section 203(k)(1)]
- Through assignment of property to the Department of Health and Human Services (HHS) for disposal as public-health facilities [Sections 203(k)(1) and (4)]

- Through assignment of property to the Department of the Interior (DOI) for disposal as a public park or recreational area [Sections 203(k)(2) and (4)]
- Through donation to the American National Red Cross [Section 203(l)]

As amended by Section 2927 of NDAA 94, Section 203 of FPASA also authorizes the DoD Component (via delegation from the Secretary of Defense) to assign surplus property to the Secretary of Transportation needed for the development and operation of a port facility. Within specified time frames, and in consultation with the Secretary of Labor and Secretary of Commerce, the Secretary of Transportation is authorized under Section 2927 of NDAA 94 to transfer such assigned property to States or territories.

In exercising its delegated authorities under the provisions of FPASA, the DoD Component is required to comply with the Federal Property Management Regulations (FPMR), promulgated pursuant to the FPASA, that are currently in effect. These regulations, found at 41 CFR Part 101-47, prescribe the policies, guidelines, requirements, responsibilities and methods governing the utilization and disposal of excess and surplus real property and related personal property within the United States and its territories.

SURPLUS PROPERTY ACT (SPA)

Section 204(b) of BCRA 88 and Section 2905(b) of DBCRA 90 give the DoD Component (through delegation from GSA to the Secretary of Defense) the authority to grant approvals and make determinations under Section 13(g) of the Surplus Property Act, as amended [49 U.S.C. §§ 47151–47153].

In exercising this authority, the DoD Component is required to comply with the FPMR and all other regulations promulgated pursuant to Section 13(g) of the SPA that are currently in effect.

ACT OF MAY 19, 1948

Section 2905(b)(D) of DBCRA 90 gives the DoD Component (through delegation from GSA to the Secretary of Defense) the authority to determine the availability of excess or surplus real property for wildlife conservation purposes in accordance with 16 U.S.C. § 667b. This otherwise unnamed statute authorizes the transfer and utilization of Federally owned real property for wildlife conservation purposes. It provides the basis by which surplus Federal real property may be transferred at no cost to a state or the Department of the Interior (DOI) for management and administration. Under terms of this Act, the DoD Component may transfer parcels of property suited for wildlife resources (e.g., migratory birds, upland game and animals) to other Federal and state agencies via Federal transfer or public benefit conveyance procedures. Sections 2 and 3 of this statute require publication of transfers for wildlife purposes in the *Federal Register*, including a description of the intended uses of the property.

NATIONAL ENVIRONMENTAL POLICY ACT (NEPA)

Compliance with NEPA is required by Section 204(c) of BCRA 88 and Section 2905(c) of DBCRA 90. In particular, Section 2905(c)(2)(A) states that the provisions of NEPA shall apply to **actions of the** [DoD Component] . . . **during**

the process of property disposal To comply with NEPA for disposal of installation property, the DoD Component must comply with the regulations in 40 CFR Parts 1500-1508, developed by the Council on Environmental Quality (CEQ), and any other Component-specific regulations pertaining to environmental impact analysis.

SECTION 120 OF THE COMPREHENSIVE ENVIRONMENTAL RESPONSE, COMPENSATION, AND LIABILITY ACT (CERCLA)

Activities for complying with Section 120 of CERCLA are part of the Ongoing Environmental Cleanup Process, which is managed under the DoD Component's BRAC Cleanup Plan.

COMMUNITY ENVIRONMENTAL RESPONSE FACILITATION ACT (CERFA)

Enacted on 19 October 1992, CERFA (Pub. L. 102-426) amends Section 120(h) of CERCLA by adding the following:

- Minimum procedures for identifying uncontaminated property at closing military installations [new Section 120(h)(4)]. These procedures require the Environmental Protection Agency (for bases on the National Priorities List [NPL]), or the "appropriate State official" (for bases not on the NPL), to concur with uncontaminated property determinations by the DoD Component
- Language clarifying that the covenant required in Section 120(h)(3)(B)(i), that "all remedial action necessary to protect human health and the environment with respect to any [hazardous] substances remaining on the property has been taken," may be given when an approved remedial action is in place and operating properly and successfully [modified Section 120(h)(3)]. [Note: In some cases, property can now be transferred to private parties before remedial action has been taken and the covenant requirements have been fulfilled.]
- Requirements for Federal Agencies (e.g., the DoD Component) to notify States of leases that will be in effect after the scheduled closure date [new Section 120(h)(5)]
- Compliance with CERFA is critical for accomplishing the transfer of uncontaminated and remediated property. For BRAC 88 and BRAC 91 realignment and closure bases, identification of uncontaminated property and CERFA compliance has already occurred. For BRAC 93 and BRAC 95 bases, identification and concurrence must be completed no later than 18 months after the approval date [CERCLA § 120(h)(4)(C)(iii)]. Section 2910 of NDAA 94 has added the further requirement that CERFA identifications and concurrences be completed within 9 months of the submittal of the LRA's approved Redevelopment Plan.
